

Pandemic preparedness

Achievements, current challenges, and new frontiers

The Conference provides an overview of recent pathogen research findings, methodologies, instruments, and multidisciplinary approaches functional to pandemic preparedness. The multiple focus of the event encompasses prevention, surveillance, detection, drug discovery and treatment.

11– 13 November 2024

Hotel Savoia Excelsior Palace, Trieste (Italy)

KEY DEADLINES

Abstract submission: 15th June 2024

Early registration: 31st August 2024

Regular registration: 31st October 2024

INVITED SPEAKERS

Tatjana Avšič-Županc, University of Ljubljana, Slovenia

Lucia Banci, University of Florence, Italy

Tulio De Oliveira, KwaZulu-Natal and Stellenbosch University, South Africa

Daniel Hurdiss, Utrecht University, Netherlands

Yoshihiro Kawaoka, University of Tokyo and National Center for Global Health and Medicine, Japan; University of Wisconsin-Madison, USA

Marion Koopmans, Erasmus University Medical Center, Netherlands

Fabrizio Maggi, L. Spallanzani National Inst. for Infectious Diseases, University of Insubria, Italy

Johan Neyts, University of Leuven, Belgium

Tom Peacock, Pirbright Institute, UK

Rino Rappuoli, Biotechnopolo Foundation, Italy

Emma Thomson, University of Glasgow, Queen Elizabeth University Hospital, UK

Martin Weigt, Sorbonne Université, France

TOPICS

Emerging and re-emerging viruses with pandemic potential

Risk of viral zoonoses and its mitigation

Diagnostics, surveillance and capacity building in resources limited settings

Immunization and preventive approaches

Drug discovery: stocking the shelves for the next pandemic

Biosafety and Biosecurity when dealing with viral infections

Multidisciplinary approaches, infrastructure, and cooperation

Future challenges in pandemic preparedness

SCIENTIFIC ORGANIZERS

Giuditta De Lorenzo (Area Science Park)

Alessandro Marcello (ICGEB)

Paola Storici (Elettra Sincrotrone Trieste)

Pietro Campiglia (University of Salerno)

Federica Mantovani (Area Science Park)
